

Historical Ages of Debrecen Reenactment Association

As reenactors of the Historical Ages of Debrecen Reenactment Association, our primary activity is attending reenactment festivals and other similar events.

With our attendance we intend to increase the event's professional quality and to provide valuable, and eventful entertainment for visitors.

Our late medieval camp gives the basis of our activity with its expanse, historical accuracy and its detailedness.

On the different events we give spectacle and the opportunity to explore it with a guide if needed.

Our equipment includes the following:

- *Historical tents and canopies*
- *Historical furniture and other accessories*
- *Historical show kitchen*

Our presence at festivals is extended with the following activities for visitors:

- *Weapons and armor muster*
- *Archery*
- *Group activities for children*
- *Tactical and strategic map for representing famous battles of medieval history*
- *Show kitchen and gastronomy performance*

The members of our association can take part in battle reconstructions in many different roles according to the needs of the event. This includes:

- *Wooden palisades with cannons and muskets*
- *Late medieval Hungarian heavy infantry*

To make events even more colorful, the Association can hold performances in the following ways:

- *Historical duels with a theatric basis lead by a herald*
- *Late medieval artillery show lead by a herald*

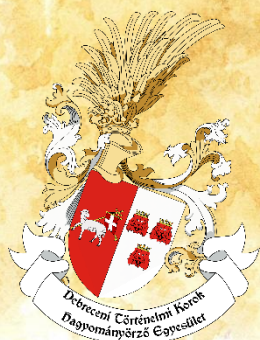

Our Association has been doing reenactment since 2014 in Hungary.

We attend several cultural events, children's camp and school programmes.

We also appear as representatives of Hungarian culture in international events in countries like Italy, Romania, Croatia, or Slovakia.

We take the representation, evocation and safeguarding of cultural and national heritage as the core of our activity.

We do this on a high level of expertise especially for the youth, for whom this can provide an eventful and valuable form of entertainment.
